

# Up to \$900 MAIL-IN REBATE

For a limited time, ClimateMaster is offering a \$750 mail-in rebate for the purchase of a Tranquility Water-to-Water AND Packaged Unit combination up to 7.5 tons total in place of a competitor's triple-function system. The rebate increases to \$900 if the total capacity is 8 tons or more! Just fill out the rebate form on the back and follow submission instructions.

## TRANQUILITY PACKAGED SERIES

Available with single or two-stage compressor, the Tranquility Packaged series was designed for both new construction and retrofit applications. The narrow cabinet was designed for easy movement through doorways, crawl spaces, and attic access. The **Tranquility 27 Series** utilizes Earth-Pure HFC-410A refrigerant along with advanced scroll compressor technology and microprocessor controls allow the Tranquility 27 to operate at the most efficient level for all weather conditions.

### Qualifying Residential Units:

**TT Series (H/V/D) Packaged Water to Air Units**

**TS Series (H/V/D) Packaged Water to Air Units**

**TMW Series Water to Water Units**

**THW Water to Water Units**

## TRANQUILITY WATER TO WATER SERIES

The **TMW Water-to-Water Series** offers a wide range of units for most any installation with an extended range refrigerant circuit, capable of ground loop (geothermal). The TMW Series can be used for radiant floor heating, snow/ice melt, chilled water for fan coils, potable hot water generation, hot/chilled water for make-up air, and many other types of HVAC applications. The **THW Water-to-Water Series** offers an extended range refrigeration circuit, capable of ground loop (geothermal) applications. Unique application-specific controls make the THW Series ideal for hydronic heating and domestic hot water generation. The heating-only refrigeration circuit is optimized for high water temperatures, heating efficiencies, and capacities.
