

<b>Critical Readings - A/C &amp; H/P Service Survey</b>	Date:
The more information you give the more we can help you	

Distributor:	Contact Name and Phone#:
--------------	--------------------------

Dealer:	City & State:
---------	---------------

O.D. Unit Type (A/C H/P) and Make:	Model#:	Serial#:
------------------------------------	---------	----------

I.D. Unit Type (Furnace A/H) and Make:	Model#:	Serial#:
----------------------------------------	---------	----------

Indoor Coil Type and Make:	Model#:	Metering Device Type:	Size or Part Number#:
----------------------------	---------	-----------------------	-----------------------

Symptoms:

Line Set Size and length #ft, rise or drop # ft

* Suction Pressure	
* Suction Line Temp	
(T&P) Suction Saturation	
Suction Superheat	

*Outdoor Dry Bulb	
* ID Entering Dry Bulb	
*ID Leaving Dry Bulb	
ID Delta T Dry Bulb	

* Liquid Pressure	
(T&P) Liquid Saturation	
* Liquid Line Temp	
Liquid Subcooling	

	Indoor	Enthalpy (THC)
*Entering WB		
*Leaving WB		
	Delta THC	

Capacity = Delta THC X 4.5 X cfm = Capacity

Discharge Pressure	
*Discharge Line Temp	
Discharge Saturation	
Discharge Superheat	

Compressor	Rated on Plate	Actual
* Volts		
*Amps		

NOTE: \* Are absolutely required readings
