

“The Truth Behind R-410A, Moisture and HFC Refrigerants” Regional Training Day

When: February 14, 2012 Tuesday

Where: Thaddeus Stevens College of Technology, Lancaster, PA
HVAC Program, Leonard Building

Time: Session I: 8:30am – 12:00 noon

Session II: 1:00pm – 4:30pm

Cost: \$25.00

Mid-Atlantic area HVAC/R Technicians are invited to the HVAC Program of Thaddeus Stevens College as Paul Appler, Cliplight’s Directory of Research, will present a seminar on the hot topics concerning R410A and moisture problems associated with it and other HFC refrigeration systems. The schedule will include a two-hour discussion of the challenges associated with moisture removal and proper evacuation techniques. Mr. Appler, Jesse Homenuik, Research Assistant, Matt Gote and Steve Phyllaier, Instructors, will be available before and after each session to answer questions and demonstrate procedures and equipment that enable today’s busy technician to get the best possible job complete in the least amount of time.

This seminar has been approved for 2 CEH’s towards NATE certifications. When attending a CEH class from a NATE Recognized Provider, make sure you:

Check course alignment with your specialty before attending classes.

Have your NATE ID number to complete the NATE Recognized Provider Attendance Record

Request a certificate of attendance
