

A/C SYSTEM TROUBLESHOOTING

This course discusses the keys to effective troubleshooting and emphasizes the importance of safety. It details a step-by-step procedure to use when troubleshooting, covering the use of a troubleshooting flowchart. It examines sample problems, leading the student through the steps necessary to locate the problem in each example.

This course will help prepare for the EPA section 608 and the NATE exam. For details, please contact Elise Fasnacht x1119 or efasnacht@hvacdist.com. This course is also eligible for NATE hours.

Dates: June 4, 6, 11, 13th
