

Attention Dealers – Important Information about Warranty Registration

Goodman would like to remind our Customers of the importance of registering all Products for the full standard warranty offerings. Registration must take place within 60 days of installation.

Registration MUST occur to qualify for the 10 Year Parts, Lifetime Compressor, Lifetime Heat Exchanger and/or Unit Replacement STANDARD warranties.

If an Extended Labor contract is purchased, the products still need to be registered with Goodman to qualify for the full standard warranties. If the items are not registered, the standard warranty will be 5 years on parts/compressors, 20 years on Heat Exchangers and they will not qualify for ANY Lifetime and/or unit replacement warranties.

Registration must be done by the Dealer or the Homeowner at:
GOODMANMFG.COM OR AMANA-HAC.COM

Verification of Registration can be confirmed at: <http://mobile.goodmanmfg.com>
